FINANCIAL AND COMMERCIAL

TURSDAY, Sept. 17-6 P. M. The gold market was rather heavy in tone at the com ncement of tusiness this morning, with sales at 144; but gradually it became firmer, and the closing transawere at the highest point of the day, namely, The volume of speculative business was light, the "short" interest is increasing. There was a corrowing demand for coin, and loans were made and at 1 a 4 per cent per annum for and 2 a 6 per cent per annum, and 1-64 a per cent per diem for borrowing. The clearings amounted to \$60,485,000; the ency balances to \$1,636,425, and the gold balances e \$1,119,317. The firm whose attorney sold gold without authority, on Saturday evening, has settled the conets without appealing to the Board. American silve s quoted at 5% a 6% below the price of gold, and Mexian dollars at 103 a 103 % in gold.

The railway share market was dull and somewhat unmitled during the early part of the day, but afterwards came strong and active, and up to the close there was

laterals, although there have been not a few transactions at seven, some of the banks and most of the private houses having advanced their rates to this Strong efforts have been made to establish seven but there is nothing in the actual condition ctary affairs at present to warrant it, and, there-Westward increases. This is the opinion also of disinrested bank officers, and hence the majority ret been marked up. A large amount of cur-ency is evidently held out of employment ime being, in order to produce an impression that it is becoming scarce, and so indirectly to depress The principal dealers in government securities were nevertheless able to borrow all the money they resired at five per cent. At the same time the tendency towards a seven per cent money market; but at this rate the indications are that the supply will be abundant. until the pork crop calls for currency at the end of No-vember, the local centres of the West being rather betsupplied with currency than usual at this The Treasury is disposed to guard against is now prepared to seven-thirty notes of either series at and to redeem the remainder of the erting them into bonds having expired. It is also prepared to redeem compound interest notes in advance of naturity, and it is regarded as more than probable that Secretary will commence the issue of the authormillions of three per cent certificates in retemption of the October notes. There is some talk on street of the probability of a special demand for onal banks to enable them to make up their quarterly To this we can only say that all inwhich stand in any such need of are doing business under false preand the sooner they are weeded out f existence the better. In this connection we may menave already been drawn down to a rather low point. here is a moderate demand for discounts, and first class al paper is quoted at seven per cent, and good out not choice at 8 a 9. The sooner there is a natural ivance of the rate for money on call to seven per cent the better it will be for both borrowers and lenders, as tt will indicate a more healthful state of the circulation and of business generally than we have latterly been

Express shares were in good demand towards the close, and the indications favor another speculative nevement in them, based upon purchases by strong parties, who are supposed to be familiar with their value. The latest quotations were:—Adams, 65% a 66; American, 65% a 66; United States, 66% a 68. Merchants' Union was dull at 18 a 19 for \$30 paid.

There was a very light volume of transactions in government securities at the counters of the leading dealers, and no demand on foreign account. THE NATIONAL GAME.

The return game between these clubs came off yester-day afternoon on the Union grounds, Brooklyn, E. D., and resulted, as did the first game, in favor of the Mutuals. The game yesterday was not marked by any tame. Pike's excellent playing at third base was a feamanner, especially after the second innings, when the Philadelphians batted as if Martin and they were old ac-quaintances; but with splendid support in the field Mar-tin was enabled to keep their score down, and finally shove them under, as the score will show. Weaver and Osterhelt deserve mention for superior playing and bat-ting on the West Philadelphia side. The score is as fol-lows:—

Unions. of Morrisanin, vs. Actives, of Newark. A friendly game of base ball came off yesterday after-

noon, between the Union Club, of Morrisania, and the Active Club, of Newark, N. J., on the grounds of the former, at Melrose. As is usual on such occasions, the fair maidens-and indeed many that were not maidensattended by obliging and evidently happy gallants, residents of the neighboring villages, turned out in goodly numbers and seemingly enjoyed the sport; the more so, perhaps, as they were fully confident that their own boys, the Unions, were sure to come off victorious. Early in the game the Morrisanians manifested their superior playing. The following is the score:—

Athletic vs. Fulton-Second Nines.
A match was played between the above named clubs yesterday afternoon on the Satellite grounds, Brooklyn, E. D., which resulted in favor of the Athletics by a score of 45 to 26.

AN ANTI-NATIONAL BANK MOVEMENT IN THE WEST.

AN ANTI-NATIONAL BANK MOVEMENT IN THE WEST.

A convention of the chizens of Illinois assembled in Ottawa, Ill., on the 9th inst., for the purpose of discussing the currency and ishor questions. One of the speakers stated that our taxes are enormous \$380,000,000 were paid for federal purposes by the producers last year, \$100,000 more than was paid by France, while each of these countries had nearly doubte the property of eurs. Federal bonds ought to be taxed, as those who loaned the money and took the bonds did no more to exempt them from taxation than the soldiers who periled their lives at the front. He insisted that a system of financial laws was upon us aggregating the wealth of our country into the hands of a favored aristocratic class—even worse than in the old countries.

The committee to report resolutions returned, a majority of whom reported in favor of atopting the report of the National Labor Congress, lately deliberating in Chicago, which report was then read, followed by the reading of a minority report. Both reports wear for the repeal of the national banking law, while the majority report urges the issuing directly of treasury notes, a legal tender for all debta, convertible at the pleasure of the holder ign ogovernment bonds bearing three per cent, and also urges other material provisions for the protection and advance of the laboring classes; while

the minority report is for keeping up our taxes and circulation as they are until our debt is paid.

The majority report was adopted, and after passing a resolution in favor of negro suffrage, the Convention, which was much more largely attended than was anticipated, adjourned.
